EXPERIENCE

Generation Junior Full Stack Java Developer Program | Remote | August 2022 – December 2022
Training Participant

- Participated in a fast-paced 16-week Junior Full Stack Java Developer cohort, spanning over 460 hours, that emphasized hands-on practical application.
- Learned and deployed the technologies involved in creating innovative full stack web applications with Java using Spring Boot Framework, JavaScript, HTML5, and CSS.
- Conducted unit scripts test with JUnit and Mocha, and troubleshot and debugged issues to ensure the quality and functionality of the code.
- Collaborated with peers on our e-commerce project, connecting the front-end and back-end driven database using SCRUM development life cycle in 1-week sprints.
- Deployed Docker container that integrates a Spring Boot application and PostgreSQL databases.

Electronic Arts | Baton Rouge, LA | May 2022 – August 2022
Video Game Quality Assurance Tester

- Ensured the station's consoles and computers had the correct build/version.
- Efficiently reported bugs and queries using JIRA.
- Playtest, Task Specifics, and Ad-Hoc for upcoming releases.
- Worked profoundly with small and large teams to conduct playtesting and address specific tasks, utilizing various bug reporting tools such as video and photo editors, screen recorders, and in-game commands.
- Documented 95% of work time, with an average of 8 reports per day.

Green Heart Meals | Lafayette, LA | June 2020 – May 2022
Cook/Website Manager

- Prepared and cooked meals according to a daily inventory of 1000 meals.
- Displayed and sustained adequate inventory of 75% in stores.
- Assisted the redesign of GreenHeartMeals.com with Sprwt, a meal prep software.
- Maintained accurate inventory and updated photos and descriptions on the website.
- Ensured user experience across the website is smooth with no bugs.

EDUCATION

Delgado Community College | New Orleans, LA **|** April 2020

- Associate of Applied Science in Information Technology
- Cumulative GPA: 3.7/4.0 | Dean's List
